Excellence in Market Adoption & Farmer Outreach Award (Ag-Biologicals)

Purpose:

To recognize organizations that have achieved large-scale adoption of biological solutions through impactful farmer engagement, extension programs, and robust market outreach

Key Evaluation Parameters:

- **Adoption Scale:** Number of farmers reached or acreage covered using biologicals.
- **Farmer Engagement:** Training, demonstrations, field days, or awareness initiatives conducted.
- **Market Reach:** Distribution strength, partnerships with cooperatives/FPOs, or digital channels.
- **Impact Metrics:** Yield improvements, input reduction, or economic gains reported by farmers.
- **Sustainability Practices:** Reduction in chemical usage and soil health improvements.
- **Community Impact:** Inclusion of smallholders, women farmers, or local entrepreneurship models.

Emerging Innovator / High-Growth Startup in Ag-Biologicals Award

Purpose:

To honor a rapidly growing startup that demonstrates innovation, leadership, and measurable commercial traction in the biologicals sector.

Key Evaluation Parameters:

- **Innovation & R&D Strength:** Novel approach, IPs, or proprietary formulations.
- **Business Traction:** Revenue growth, customer acquisition, or product diversification.
- **Leadership & Team:** Visionary founders and technical or management strength.
- **Market Presence:** Partnerships, collaborations, and distribution footprint.
- **Scalability:** Potential for national/international expansion.
- **Recognition & Impact:** Industry recognition, awards, or participation in global programs.

Breakthrough Biological Product / Technology Innovation Award

Purpose:

To celebrate outstanding products or technologies that demonstrate scientific excellence, strong field performance, and transformative potential for sustainable agriculture

Key Evaluation Parameters:

- **Scientific Merit:** Research depth, novelty, USP and validated mode of action.
- **Field Efficacy:** Proven performance through independent or multi-location trials.
- **Regulatory Readiness:** Regulatory compliance or progress in registration, and target markets.
- **Scalability:** Manufacturing readiness, shelf-life, and commercial feasibility.
- **Environmental Compatibility:** Safety to soil, beneficial organisms, and ecology.
- **Transformative Potential:** Ability to redefine practices or create a new product category in biologicals.

Timeline

30 NOV 2025

DEAD LINE TO SUBMIT APPLICATION

EARLY DEC 2025

SCREENING & JURY ROUND

10 -11 DEC 2025

PRESENTING WORK & AWARD

APPLY NOW
