What is BIPA

The BioAgri Input Producers Association (BIPA) is the oldest registered body for agricultural biology, established in India. With over 100 active members, BIPA champions safe, sustainable, and biologically derived solutions to replace conventional agrochemicals. BioAgri is the the Premier Biological Agriculture Conclave in India organised by BIPA.

Why BioAgri 2025 Matters?

Building on the success of BioAgri events from 2021 through 2024, BIPA is proud to present the Fifth Annual BioAgri Industry Summit–BioAgri 2025. Set to take place at Ramoji Film City, Hyderabad, on December 10–11, 2025, this leading event offers a dynamic platform to explore innovations, understand emerging regulations, and build powerful collaborations to advance the global BioAg agenda.

Why this Challenge?

India's **BioAgri** revolution is here – driven by startups building biologicals, green chemistry, and soil-health innovations that can transform farming for people and planet.

BIPA Startup Challenge 2025 seeks to **identify, support, and celebrate** India's most promising BioAgri startups leading the transition toward climate-positive agriculture.

What's in it for Startups?

✓ Pitch before industry leaders, investors, and policy-makers

✓ Showcase at BioAgri 2025 — the biggest BioAg event in India

✓ 2-day fully funded participation* & Complimentary membership to BIPA for one year

✓ Visibility through BIPA channels & business opportunities

Who Should Apply?

✓ Startups from BioAg research and innovation

✓ Startups from Green Chemistry based products

✓ Soil health related technologies and services

✓ Carbon emission reduction technologies

Timeline

30 NOV 2025

DEADLINE TO SUBMIT APPLICATION

EARLY DEC 2025

SCREENING & VIRTUAL JURY ROUND

10 -11 DEC 2025

FINAL LIVE PITCH AT BIOAGRI 2025

* Nominal Application Fee: ₹1,000 per startup for applying in the competition (to ensure serious participation).

Kindly note that only Top 3 finalist will pitch LIVE and other startups may exhibit during BioAgri 2025 (cost may apply)

Key Evaluation Criterion

- Innovation & Technological Edge
- Sustainable Commercial Viability
- Team Competence & Commitment
- Traction & Validation
- Impact Potential
